COASTAL KZN COLLEGE

Your Pioneering Centre of Excellence

NATIONAL CERTIFICATE VOCATIONAL (NCV)

What is a National Certificate Vocational (NCV) ?

Public FET Colleges now offer a new, exciting, modern and relevant range of vocational programmes known as the National Certificate Vocational. These vocational programmes are high skills, high quality and high knowledge programmes introduced at FET Colleges nationally in 2007 and are intended to directly respond to the priority skills demands of the modern economy. From January 2007, the National Certificate (Vocational) replaced the NATED courses (N1 – N3) at public FET Colleges.

The National Certificate (Vocational) is currently offered at levels 2, 3 and 4 of the National Qualifications Framework (NQF). The National Certificate Vocational is designed to provide both the theory and practice. The practical component of study may be offered in a real workplace environment or in a simulated workplace environment. It provides students with an opportunity to experience work situations during the period of study. The qualification also provides an opportunity to enter higher education studies subject to appropriate subject combinations.

What is the entry requirement?

- Grade 11 or equivalent
- Grade 9 & 10 will be considered only on exceptional cases

The minimum entry requirement is Grade 9. However, the NCV programmes are very challenging and are ideally suited to students with a higher existing qualification.

What is the duration of this Qualification?

The National Certificate Vocational qualification is a full year programme at each of the NQF levels of study. Ideally students should complete all three levels and thereby complete the full level 4 qualification.

Which subjects make up a National Certificate?

In order to obtain a National Certificate (Vocational), a student is required to take a total of 7 subjects, which are:

- 3 Fundamental subjects and
- 4 Vocational subjects,
