**PROJECT:** **Upgrade and Servicing of Practical Skills Training Centre Including Electrical, Plumbing, Fencing and Demo Structures**

**SITE:** **APPELSBOSCH**

## Project Background

The project involves the supply, installation, testing, commissioning, and handover of building services and training infrastructure required for a practical skills development facility. The facility is intended to support vocational and occupational training activities and must comply with applicable South African building standards, occupational health and safety requirements, and QCTO training specifications.

## Project Scope

The works comprise four primary components:

### 1. Electrical Installation

Supply and installation of a complete electrical reticulation system, including:

- Internal lighting systems (LED fittings, emergency lights, and exit signs)
- Power outlets and dedicated equipment points
- Data and communication outlets
- Distribution board connections
- Air-conditioner isolators
- Hand dryer and water heater power supplies
- Extract fan connections
- Testing, commissioning, certification, and handover

Areas covered include:

- Assessment Area
- Practical Training Area
- Workstations
- Offices
- Strong Room
- Storeroom
- Ablution Facilities

- Changing Rooms

**2. Plumbing Installation**

Supply and installation of a complete water supply and drainage system, including:

- Toilets and urinals
- Wash hand basins and mixer taps
- Shower installations
- Accessible disability sanitary facilities
- Hot and cold water reticulation
- Electric geysers
- Soil and waste drainage systems
- Inspection chambers
- Testing, certification, and commissioning

**3. Fencing Works**

Installation of security perimeter fencing comprising:

- Steel palisade fencing
- Support posts and base plates
- Anchor bolts and fixing systems
- Alignment and securing of fence sections
- Finishing and corrosion protection
- Site clean-up and handover

**4. Construction of Demonstration Structures**

Construction of seven QCTO-compliant practical training structures for bricklaying and construction skills development, including:

- Foundations and brickwork
- Damp-proof courses (DPC)
- Lintels and structural openings
- Piers and wall sections
- Finishing works
- Site cleaning and handover

**Project Objectives**

The objectives of the project are to:

- Provide a fully functional vocational training environment.
- Develop practical learning facilities aligned with QCTO requirements.
- Ensure safe and compliant electrical and plumbing services.
- Improve site security through perimeter fencing.
- Create durable demonstration structures for learner training and assessment.
- Deliver a complete facility ready for occupation and operational use.

**Deliverables**

Upon completion, the contractor shall provide:

- Fully operational electrical installation.
- Fully operational plumbing and drainage systems.
- Completed palisade fencing installation.
- Seven completed demonstration structures.
- Compliance certificates and test reports.
- As-built drawings.
- Operation and maintenance manuals.
- Handover and practical completion documentation.

**Expected Outcome**

The completed project will provide a secure, serviced, and fully functional practical training facility equipped with classrooms, workstations, ablution facilities, changing rooms, and demonstration structures that support occupational skills training, learner assessments, and accredited QCTO programmes.
